The Secretary of the Meeting

## TIMEKEEPING LEGEND

The timekeeping system in operation for the Legend category during the Legend Boucles® in Bastogne is a timing system with transponders.

Each team will receive its own transponder (Mylaps) on Thursday or Friday during the scrutineering. It will be placed with the help of the timekeeping crew.

If your car possesses its own Mylaps transponder, please just let us know its registration number.

During the Legend Boucles®, three or four timekeeping loops will be in operation (Flying start, transitional, Flying finish).

At each loop, the time will be taken by the transponder and sent immediately to the timekeeping HQ.

The transitional will be in use to control the number of laps for the RT Show

**The co-driver is responsible for the transponder. He (or she) must control at all times that it is well fixed.**

Official times are those contained in the chip of the transponder, the time sheet is purely informative.
